# HANDS ON LEARNING

Engaging kids in their school and their community

**VOLUNTEERS WANTED!**

## What is Hands On Learning?

Hands On Learning is an education support program to help young people get the most out of school. One day a week HOL students attend a 'work place' within the school and do practical jobs such as building, landscaping and cooking. This compliments the work they do in the classroom and increases self esteem and a sense of belonging.

## What would I do?

The question is, what **CAN** you do?

### **Everyone can do something.**

You may like to work in the garden, cook, build, design, landscape, work on mechanical things... the possibilities are endless.

If you'd like to help out students under the guidance and support of the HOL team - Kirsty and Liam, or if you have any spare materials or equipment -

give us a call on 5973 1000
